Ground rules

- Session: warm-up 6-8 min · main 25-38 · finisher 6-12 · cool-down 5 (lap walk + stretch + foam roll).
- RPE 6 = 4 reps left, RPE 8 = 2 left. No failure. Top of the rep range on all sets at target RPE → next weight step.
- Exhale on effort, no breath-holding, no max lifts. Stop for chest pain or dizziness.

- Recovery rule: poor sleep (<6 h) or HRV well below usual → repeat last week's numbers or take a 30-min walk.
- Protein every day; banana pre-workout.
